

SUMMIT VIEW SCHOOL
WHERE STUDENTS WITH LEARNING DIFFERENCES EXCEL

**JULY 6TH 2020 -
JULY 31ST 2020
8:30 AM - 1:00 PM**

CULVER CITY CAMPUS

**SUMMER PROGRAM
2020**

Small Group Tutorials

Test Preparation

Math, Reading, Writing Reinforcement

Enrichment Courses

Summit View offers comprehensive lower, middle, and upper school programs for students with learning differences. An innovative and integrated curriculum, coupled with small class size and low teacher to student ratio, enables students to develop their abilities and enhance their intrinsic talents.

The summer program offers students the opportunity to:

- acquire new skills
- reinforce basic reading, writing, and math skills
 - master test-taking and improve study skills
 - strengthen knowledge in a particular subject
 - develop expertise in computers, the Internet, and multi-media

ELEMENTARY (CURRENT GRADES 1-6)

PLEASE CHOOSE ONE OF THE FOLLOWING:

Math

Strengthen your basic math skills and tackle those pesky word problems in this elementary math class.

Writing

Do you have something to say? Then let's put "pen to paper" in this writing class as we help you find your voice!

Reading / Listening Comprehension

Students will work on further developing their reading comprehension skills, with a focus on higher order thinking skills, as they read, listen to and discuss a variety of different materials.

Wilson Reading

Students will work on further developing their decoding and encoding skills, through the research-based Wilson reading program.

World Cultures

Students will have fun as they take on the role of virtual globe trotters as they explore different cultures from around the world.

All about Animals

Have you ever wondered why lizards do press-ups in the desert, or why a male penguin balances the egg on his feet? Then you need to check out "All about Animals".

P.E.

Keep virtually active through Yoga, Tai Chi, Zumba and a variety

CLASSES SUBJECT TO ENROLLMENT

UPPER SCHOOL (CURRENT GRADES 7-12)

PLEASE CHOOSE FOUR OF THE FOLLOWING:

Exploring Word Problems

Let's break those words apart and get to the bottom of those challenging things called word problems!

Algebra Skills

Heading into Algebra, or need to brush up on those basic Algebra skills, then this class is for you. Learning and practicing a variety of basic algebra concepts while working with variables, equations and inequalities.

Geometry Skills

How do you use a protractor? What are opposite angles? How many degrees are there in a straight line? Why is so much of this so obtuse? Let's brush up on those basic Geometry skills and concepts!

Step up to Writing

Do you need a formula for writing a basic paragraph or essay? Step up to Writing is the answer! Color code your way through the writing process, with this step by step program.

Creative Writing

Express yourself and your thoughts and ideas through this creative writing class. Bring only your imagination!

Essay Writing

Are you ready to further develop those essay writing skills? Fine tune that thesis statement? Make that conclusion count! - then you need Essay Writing!

Intro to ASL (for students who have not taken ASL 1)

This class will introduce you to the basics of ASL - the language and some basic signs, within the context of the deaf culture.

UPPER SCHOOL CLASSES CONTINUED ON NEXT PAGE

UPPER SCHOOL (CURRENT GRADES 7-11) CONT.

Intro to Spanish (for students who have not taken Spanish 1)

The class will introduce you to the world of Spanish language, including some basic words and phrases.

Conversational ASL (for students who have taken at least ASL 1)

Take those ASL skills to the next level as you practice non-verbal communication using ASL!

Conversational Spanish (for students who have taken at least Spanish 1)

Put your Spanish (and non-verbal communication skills) to the test as you chat and share news, stories and jokes with your classmates in this conversational Spanish class.

Exploring Literature

Students will utilize HOTS (higher order thinking skills) as they explore a variety of different literary short stories and poems.

Wilson Reading

Students will work on further developing their decoding and encoding skills, through the research-based Wilson reading program

Intro to Anatomy

Have you ever wondered what makes up the shape and structure of the human body? You've got questions, we've got answers in this intro to Anatomy class.

Senior Research Project (Incoming Seniors only) - 2 periods

Who am I? (Strengths, Interests)- How well do you know yourself? What is your emotional IQ? What is your leadership style? What is your communication style? Why not start on your own journey of self-understanding?

P.E.

Keep virtually active through Yoga, Tai Chi, Zumba and a variety of other activities and exercises, from the comfort of your own room!
